

2022 OCA Graduates Receive Employment

We are excited to announce that three Ohio Construction Academy graduates were recently offered and accepted positions with Right Choice Electrical in Columbus, Ohio. These students all received certifications in electric under the leadership and guidance of Principal Matt Demosky and instructor, Ms. Andrea McGee. Ms. McGee's training allowed our students to become highly marketable with skills that placed them at the top of the list for hire.

OCA forged a relationship with Right Choice Electrical, as this company is an active participant in *Real Life Wednesdays*. *Real Life Wednesdays* is a career based initiative, in which different speakers visit OCA to share vital information with students regarding different career paths.

We would like to give special recognition to Principal Matt Demosky and the OCA team for motivating our students to achieve their goals. You are the spark that ignites success in the lives of our students. The Educational Empowerment Group will continue to support you, as you inspire our students to reach for greatness and prepare them for success beyond high school.
